

# TEMPO TIMES

## Introducing Tempo Bob!

You've undoubtedly heard of Netflix, Hulu, even Disney+...but have you discovered the latest gem in online entertainment: Tempo Tool Time, available exclusively on Tempo TV?

The fun, engaging, and often informative segments are brought to you by the wacky, loveable "Bob," Tempo's very own internet phenom.

Sure, the Mandalorian is fine, but can he bring you the perfect combination of insight and passion that Bob delivers? And Baby Yoda is so yesterday, join the Bob bandwagon while there's still room! We've even given Bob his own page on our website: <https://www.tempocom.com/tempotv/>.

Watch all of Bob's videos, read his bio, and even email him with questions. Be sure to follow, like, share and comment on each episode of Tempo Tool Time for chance to win great prizes from Tempo!

## Thanks for stopping by at BICSI Winter

We hope you were able to stop by our booth at BICSI Winter in Tampa to get the latest scoop on Tempo and see some of our newly rebranded products, including our Fiber Tool Kits, 701K-G, Micro OPM, NetCat, Fusion Splicers, Paladin Hand Tools and Cleavers, and more!

Attendees had an opportunity to get an in-depth, hands-on demonstration of the AirScout® GigaCheck and discovered how this easy-to-use tool can verify GigaBit speeds and ensure customers are getting what they're paying for.

We'd still love to get your feedback on what's most important you in a Wi-Fi® testing solution: <https://www.surveymonkey.com/r/29MCQZW>.

## Fully stocked Fiber Tool Kits are here!

Tempo Communications has launched a new line of fully stocked Fiber Tool Kits, designed to give communications technicians the instruments needed to optimally install and test today's fiber optic networks. This latest product offering resonates with Tempo's commitment to provide innovative, job specific tools and test equipment at the right price for every technician.

Tempo's Fiber Optic Tool Kits are available in four configurations to satisfy the varying tasks that the fiber optic technician may encounter. Each kit includes a rugged tool bag with all the common tools required to effectively and safely complete the job in an efficient and timely manner.

To learn more, go to [www.tempocom.com/tempes\\_cat/fiber-tools/](http://www.tempocom.com/tempes_cat/fiber-tools/).

## Spike is coming!

Be on the lookout for Spike from Tempo, coming soon...

What is Spike? Spike is a compact and easy-to-install addition to the Tempo Communications Electronic Marker System family. These sleek markers are primarily designed for marking objects, such as telecommunications and gas lines, buried in the soil to depths of about one meter (3ft). Spikes are ideal for use in shallower and narrower ducts where Tempo's Omni Marker II is impractical. Stay-tuned for more as the launch of this exciting new offering nears.

## On the road with TEMPO

Be sure to stop by and say hello to us at these upcoming shows and events:

ITA Showcase Northwest, March 4-5, 2020, Portland  
CommTech East, April 7-8, 2020, Mississauga, ON  
Fiber Connect, June 1-3, 2020, Nashville

## Paladin and DataShark Pages

### The Paladin Legend Continues

Built to last a lifetime

[View Products](#)

Paladin Tools Combine Ruggedness, Reliability and Versatility

The Paladin brand is synonymous with quality, reliability, ruggedness and performance. Designed to be the go-to hand tool for communications technicians and complement the tried-and-true Tempo Communications reputation of test and measurement solutions—Paladin Tools, manufactured by Tempo Communications remains an industry favorite when only the best will do. As always, Paladin Tools are proudly backed by a limited Lifetime Warranty.

Tempo Communications also offers the Paladin and DataShark brands of tools. Paladin is a professional grade line of rugged and reliable hand tools, backed by a lifetime warranty, while DataShark is a do-it-yourself line of datacomm tools available at places like Home Depot, Menards and Amazon.

To learn more, go to:

DataShark: [www.tempocom.com/datashark/](http://www.tempocom.com/datashark/)

## TEMPO knows VDV!

Even though Tempo Communications as we know it today recently re-emerged from acquisition of Greenlee Communications, the Tempo brand has been synonymous with industry-leading VDV testing solutions for decades!

The next time you need to order a rugged and reliable Tone & Probe like the flagship 701K-G, a tried-and-true Telephone Test Set like the TM-500, or an all-in-one digital cable test and verification device like the NetCat NC-500, you just have to remember on name: Tempo!

No one knows VDV like Tempo Communications, and we back each and every one of our products with unsurpassed service and support to ensure you are getting the most out of your purchase!

In addition to VDV, we offer a comprehensive line of test and measurement tools solutions for every technician, including:

- Fusion Splicers & Fiber Testers
- Installation Hand Tools
- Multi-function Test Sets
- TDR's
- Locators & Electronic Markers
- Wi-Fi® and Ethernet Test Sets
