

January 28, 2026

Dear Valued Customer,

We want to proactively share an update regarding our AS9100/ISO 9001:2015 certification and thank you for your continued trust in us.

Our current AS9100/ISO 9001:2015 certificate reached its expiration date on January 22, 2026. We are actively in the process of recertification and have completed the required steps with our certification body. Due to normal scheduling and administrative timelines, the re-issued certificate is expected within the next 30 days.

During this interim period, our quality management system remains fully implemented and operational. Our processes, controls, and commitment to meeting customer, regulatory, and quality requirements have not changed, and we continue to operate in alignment with AS9100/ISO 9001:2015 standards.

We understand that certifications are important to you, and we truly appreciate your patience and understanding while the recertification process is finalized. If you have any questions, need additional documentation, or would like to discuss this further, please do not hesitate to reach out.

Thank you for your continued partnership.

Sincerely,

Rhanda Fields
